Letter from the Chairman

"FCC will continue to be a clear business reference in terms of soundness and profitability in the future"

Ladies and gentlemen

Fiscal year 2007 was a very special year for FCC, as you can see from this Annual Report, not only because of the truly spectacular results obtained, thanks to the work of a great professional staff and the unconditional support of our shareholders of reference, but also because of the progress made in the area of good governance and corporate responsibility.

The challenges of economic, environmental and social sustainability, including climate change and the exhaustion of natural resources and biodiversity, are important to a Group such as FCC. But it is also becoming increasingly evident that these are strategic factors which affect the competitiveness of the company in an environment of changing risks, demands and opportunities. And FCC has understood this by incorporating corporate responsibility commitments into its new strategic plan.

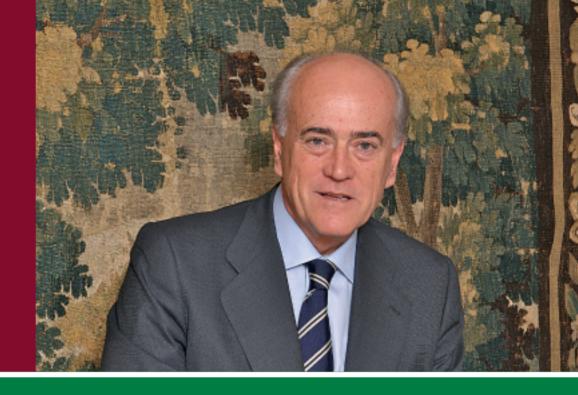

The Group's 2007-2008 Corporate Responsibility Master Plan promotes the integration of business strategy with corporate responsibility objectives. The report addresses the principle actions carried out in this regard. This year, for example, we have reinforced the framework of values and integrity by revising the mission, vision and values of FCC, drafting a Code of Conduct, deploying an ethical channel as a safeguard measure, and adapting the Group's internal rules to the CNMV's Unified Code of Good Governance.

The issues of climate change and the goal of achieving a low-carbon economy have been undertaken by the different business areas while the Group has made progress in their strategic analysis, in the response to the demands for information from socially responsible investors, and the presence of FCC in public and private initiatives.

Our company has managed to face these challenges and to achieve the ambitious goals we had set for in the 2005-2008 Strategic Plan—a year ahead of time!

As you con see, FCC is prepared to successfully meet the challenges which advanced societies demand and which it will undoubtedly face in the future as a clear business reference in terms of soundness and profitability.

Rafael Montes Sánchez Chairman

Letter from the Managing Director

Baldomero Falcones joined FCC as Vice President and Managing Director in January 2008

Ladies and gentlemen

You hold in your hands the annual report for fiscal year 2007 which is a faithful reflection of FCC's success last year, a year in which it took a qualitative and quantitative leap, unprecedented in its hundred-year history, which converted it into a company with a permanent presence in numerous countries and in very diverse and always profitable business activities.

I will summarise the company's principal indicators below which are the result of the efforts of a great staff which I had the honour to join in January 2008.

Net turnover was 13,881 million euro, which represents a 46.4% increase over the year before. This spectacular increase in turnover is due to the consolidation of the companies acquired in 2006 (WRG, Alpine, Uniland, SmVaK, Lemona and Flightcare Italia) and also to the excellent performance of the businesses that were already part of the Group.

We have seen the first fruits of our firm commitment to international expansion with **revenues from business abroad** reaching 36% of the total (4,996 million euro), tripling the 2006 figure. The areas where we have the strongest international presence are construction (41%) and environmental services (36%). 83% of foreign revenues are generated in European countries and 5% in the United States.

50% of the Group's revenues came from construction, due primarily to our international expansion, while 34% came from services, almost 13% from cement and the rest from our real estate business.

Thanks to the efforts of all business areas, at the end of the year the Group had a **backlog** of 33,149 million, which represents an 8.6% increase over the year before.

The **gross operating profit** was 2,042 million euro, which represents an increase of 47.2% and a sales margin of 14.7%, one-tenth higher than the year before. Services contributed 41% to overall Ebitda, cement contributed 30.4%, construction 17.5% and real estate and others, 11%.

The **parent company's profits**, after taxes and minority shareholders, were 738 million euro, which represents a 37.8% increase over 2006.

"Our firm commitment to international expansion has already had an effect, with revenues from business abroad accounting for 36% of the total (4,996 million euro)"

"The total dividend paid against 2007 profits will be 2.13 euros per share, which represents a 4% increase over the year before"

"FCC is now present in 52 countries and employs one hundred thousand people" These magnificent results were obtained while maintaining the soundness of our balance sheet, since our **net financial debt** at the end of the year was 7,967 million euro, 4,846 of which referred to debt with recourse to the parent company and the remainder to project financing. The net financial debt with recourse was 2.71 time Ebitda, the lowest in our sector.

In view of these excellent results, the Board of Directors will ask the General Meeting of Shareholders to approve the payment of a complementary dividend of 1.065 euros per share, the exact same amount as the interim **dividend** paid in January. If the dividend proposal is successful, the total dividend paid against 2007 profits will be 2.13 euros per share, which represents a 4% increase over the year before.

At FCC, we are making important strides in **Corporate Responsibility**. During the first year of the Corporate Responsibility Master Plan, the actions contained in the Plan gradually incorporate into the Group's strategies and operations the corporate responsibility elements which are material and key to the current and sustainable success of the business.

Climate change and the goal of a low carbon economy, investment in R+D+i and environmental technologies are strategic factors for FCC which it has undertaken with even more determination than in 2006.

Our Group grew in 2007 and became more diverse. FCC is now present in 52 countries and **employs** one hundred thousand people. Growing with diversity and stability requires integration. In this regard, we are developing the Galileo Project, designed to establish a solid cultural, compliance and management foundation for the new international companies that have joined our Group.

All of this can be seen in our Corporate Responsibility Report which has been audited by an independent third party and drafted according to the strict requirements of the Global Reporting Initiative (GRI).

I would like to take this opportunity to thank the employees for their hard work and dedication and the shareholders for having faith in us.

Eduardo González Gómez José María Verdú Ramos The new economic environment in which the FCC Group will be operating in the period 2008–2010 will presumably be characterised by:

- Economic slowdown in developed countries.
- Growth in emerging countries.
- More restrictive capital and financial markets and higher financing costs.

- Deceleration of construction and real estate business in the Spanish and North American residential markets.
- Growing demand for investment in transport and service infrastructures in both developed and emerging countries.
- Growing concern with the environment and generation of alternative and clean energies.

strategy

Two-thirds have been invested in international markets

Within this context, management has developed a Strategic Plan for 2008-2010 with the goal of consolidating FCC as a diversified and international leader in services and infrastructure. The main objectives of the Plan are the generation of value for shareholders, the professional development of employees and the contribution of the FCC Group to the sustainable development of society.

These objectives will be reflected in the following business terms:

- 1. **Profitability**: Generating an increase in value for shareholders of more than 50%.
- 2. **Leadership**: Earning revenues of 18,000 million euro in the year 2010.
- 3. **Diversification**: Services will be the primary source of the Group's Ebitda: more than 50% in the year 2010.
- 4. **Internationalisation**: Income from foreign business will represent more than 50% of the total in the year 2010.

In order to achieve these objectives, FCC will implement three main strategies that will entail an investment of 4,100.

- Consolidation of current business, maintaining FCC's position of leadership and market share in the markets where it operates, consolidating and integrating recent acquisitions. The Group plans to invest approximately 2,400 million euro to consolidate its current business.
- Taking advantage of growth opportunities in the service and infrastructure business in the strategic areas of the United Kingdom, Central and Eastern Europe, the United States and Central America. In addition, the Group will continue to diversify its business, focusing on the energy sector, particularly the areas of co-generation, energy efficiency and renewable energies. To do so, the FCC Group will invest 2,600 million euro in acquisitions and development during the period 2008-2010.
- Enhancing the organisation's efficiency by reorganising people and processes, managing talent and optimising costs.

The Strategic Plan calls for maintaining and improving the Group's financial solvency and security during the period 2008-2010 with a corporate debt to Ebitda rate of less than three. In addition,

the Group will continue to be financially disciplined, internationalise its sources of financial resources and strengthen its relationship with investors.

FCC wants to be recognised and admired by the society it serves and for its contribution to sustainable development. The 2008-2010 Strategic Plan will promote initiatives related to corporate responsibility and transparency that will allow the Group to achieve its objectives. 01/31/2007 |

Changes on the **Board and other Governing Bodies**

Esther Koplowitz proposes the appointment to the company's Board of Luis Portillo, Chairman of Inmocaral (which owns 15.066% of FCC), and Mariano Miguel, CEO of Inmobiliaria Colonial.

Share acquisitions and transfers

FCC has acquired from Siemens Water Technologies Corp. (SWT) its two US subsidiaries specialised in treatment and recovery of industrial oils and other ancillary services to the oil industry: Hydrocarbon Recovery Services Inc. (HRS) and International Petroleum Corp. The two companies will be integrated into FCC Ámbito, the group's industrial waste management division.

The operation cost 182.5 million dollars, i.e. nine times 2008 Ebitda. As a result, FCC, which is controlled by Esther Koplowitz, will become the second-largest player in this field in the USA.

HRS and International Petroleum operate in 21 states in the Mid-Atlantic, South-East and South Central regions of the USA, an area with a total population of 160 million.

The acquired Group, which is based in Houston, Texas, has 38 industrial plants, a fleet of 362 vehicles, and 528 employees. It is expected to obtain 140 million dollars in revenues in 2008.

12/18/2007

Changes on the **Board and other Governing Bodies**

The Board of Directors accepted the resignations of Francisco Mas-Sardá Casanelles, Marcelino Oreja Aguirre as Non-Executive Chairman and Rafael Montes Sánchez as Managing Director and appointed **Baldomero Falcones** Jaquotot as Managing Director and Rafael Montes Sánchez as Non-Executive Chairman.

12/19/2007

Resolutions of the **Board of Directors**

The Board approves the payment of an interim dividend of 1.065 euros per share against 2007 results.

12/26/2007 | Other relevant events

Esther Koplowitz Romero de Juseu, through her company Dominum Dirección y Gestión, S.A., has purchased the 10.55% share in the company B 1998, S.L. (which owns 52.483% of FCC's share capital) from Ibersuizas Holdings, S.A. effective on 30 January 2008.

The price of the transaction was 381.5 million euro which means that the underlying FCC shares were valued at 55.94 euros per share.

This transaction carried out at the request of Esther Koplowitz, which increases her ownership in FCC, resulted in the disinvestment of the Ibersuizas Group in the share capital of B 1998, S.L. and consequently of the FCC Group. Ibersuizas Holdings, S.L. will cease to be part of the shareholders' agreement that regulates the relations between the shareholders of B 1998, S.L. At the same time, on the effective date of the agreement indicated above, Ibersuizas Holdings, S.A. will step

Other communications

down as a member of the Board of Directors of B 1998, S.L. and Ibersuizas Alfa, S.L. will step down as a member of the Board of Directors of Fomento de Construcciones y Contratas, S.A.

Following this reorganisation, the shareholdings in B 1998, S.L. are as follows:

01/30/2007

FCC and Caja Madrid found Global Via Infraestructuras

Caja Madrid and FCC have established a 50:50 ioint venture called Global Vía Infraestructuras, S.A. to group all of the infrastructure assets owned by the two partners.

The company's initial capital stock is 250 million euro and it has holdings in 35 infrastructure concessions, basically roads, commercial ports and marinas, metro and tram lines, and hospitals.

At its first meeting, the new company's Board of Directors elected Jesús Duque as Chairman of Global Vía Infraestructuras and appointed Javier Falces as general manager.

08/01/2007

FCC enters the glass recycling business

FCC has entered the glass recycling business by acquiring the Gonzalo Mateo Group for 20 million euro.

It has acquired two companies, Gonzalo Mateo, S.L. and Cristales Molidos, S.L., which will be incorporated into Ámbito, FCC's industrial waste management division.

The Gonzalo Mateo Group processes 100.000 tonnes of consumer and industrial glass waste per year at its three plants in Aragón and Valencia; it is expected to report 12.5 million euro in revenues this year.

Evolution of shares

In 2007, the Spanish stock market made trading history by reaching 15,945 points on 8 November 2007 after starting the year at 14,146 points. However, this trend was interrupted by the subprime mortgage crisis in the United Sates which affected the world's financial system, causing serious credit problems that ultimately affected the economy, with growth forecasts for world economic activity revised in a downward direction. The lbex-35 index ended the year at 15,182 points with an appreciation of 7.3%.

The performance of the securities in the Spanish construction sector was worse than the index of reference due to changes in the economic cycle which have had serious repercussions on residential real estate construction. FCC's shares ended the year at 51.40 euros per share, down by 33.4%, which was less than the losses sustained by other companies in the sector such as Ferrovial or Sacyr.

Five-year performance of FCC shares: If an investor invested 10€ in FCC stock on 31-12-2002, his investment would be worth 26.8€ on 31-12-2007, including dividends.

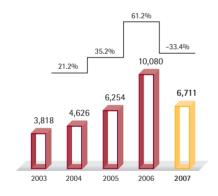

Stock market capitalisation

FCC ended the year with a capitalisation amount of 6,711 million, lower than the previous year's record of 10,080 million.

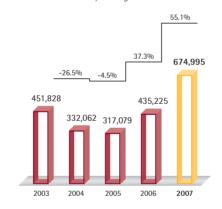

Trading

The total share volume traded was more than 171 million shares, with a daily average of 674,995 shares, which is an 55.1% increase over 2006. Over the course of the year, the traded volume exceeded 1.3 times FCC's total share capital. As far as the cash value traded, the daily average was 45 million euro, more than double the previous year's figure.

Dividends

Should the proposal that will be submitted to the General Meeting of Shareholders in June 2008 be approved, the amount that will be distributed to shareholders in the form of dividends paid on fiscal 2007 profits will be 2.13 euro per share (gross), distributed in two payments: the interim dividend of 1.065 euro (gross) per share paid on 9 January 2007 and the complementary dividend of 1.065 euro (gross) per share.

The total figure is 3.9% higher than the dividend paid on fiscal year 2006 profits and it makes for a pay-out of 60%, higher than the 50% target pay-out.

In the last five years, the distributed dividend has been multiplied fourfold.

Treasury stock

In fiscal year 2007, FCC acquired a total of 5,046,871 shares of treasury stock for more than 315 million euro. The net position at 31 December 2007 was 5,738,955 shares, equivalent to 4.4% of the company's share capital.

Shareholders

FCC, S.A., issues shares under the book entry system. Those shares are listed on the four Spanish stock exchanges (Madrid, Barcelona, Valencia and Bilbao). According to the information on file in National Securities Market Commission records. the company's most relevant shareholders are as follows:

B 1998, S.L.	59,871,785	45.855%
Inmobiliaria Colonial, S.A.	19,671,780	15.066%
Azate, S.L.*	8,653,815	6.628%

^{*} Wholly-owned subsidiary of B 1998 S.L.

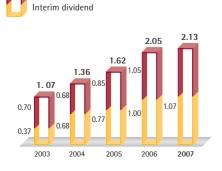

FCC's free float is 32% of the share capital and is composed of Spanish minority shareholders (21%), Spanish institutional investors (32%) and foreign institutional investors (47%),

according to the data provided by Iberclear in May 2007.

The composition of the free-float is as follows:

Dividend per share Euros

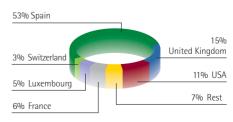

Complementary dividend

% Pay-out (Controlling company dividend/net operating results)
