

**FCC LANDS LARGEST INTERNATIONAL CONTRACT IN THE HISTORY  
OF SPAIN'S CONSTRUCTION INDUSTRY**

- **FCC LEADS THE CONSORTIUM WHICH WILL BUILD LINES 4, 5 AND 6 OF THE RIYADH METRO FOR 6.07 BILLION EURO**

**Madrid, July 29<sup>th</sup>, 2013.** FCC, the Citizen Services Group, has achieved a new milestone in international construction. The Arriyadh Development Authority (ADA) has awarded the FCC-led consortium one of three contracts to build the Riyadh metro, the longest subway system under development in the world (176 kilometres) which has an estimated budget of over 16.3 billion euro, i.e. 2.5 times the cost of the Medina-Mecca railway.

FCC, along with its main consortium partners, Samsung, Alstom, Strukton, Freyssinet Saudi Arabia, Tyspa and Setec, will build lines 4, 5 and 6 of the subway; the contract is worth 6.070 billion euro, the project is to be executed in 5 years, and will employ 15,000 people.
